

Security risk management

Close Protection training for an uncertain future

Hawki

“The professionalism, knowledge and experience of Hawki’s instructors was truly second to none”

CP student from the Household Division

Close Protection training

For an uncertain future

Hawki run monthly SIA approved Close Protection courses for individuals wanting to pursue a career in security. All our courses are practical and ‘hands-on’. A wide range of visual aids and role-play adds to the realism of the training experience. Included are covert radios, realistic exercises, simulations, vehicles and medical equipment.

For individuals

Our highly regarded course provides the skills and qualifications you need for a career in close protection. The first two weeks are at our UK centre and the final week is at a facility in Europe, where students apply their hostile environment skills.

Career support

We offer advice on a career as a close protection contractor, the process of applying for jobs and advice about the industry as a whole. We also conduct interview workshops and help with CV preparation.

Our training centre

Our main training facility is just an hour outside London, off the motorway and close to railway stations. Set in 1900 acres of countryside, its barns, outbuildings and off-road tracks provide a superb setting for all exercises. With accommodation for up to 60 people, excellent cuisine, lecture facilities and a full range of equipment, it is one of the country’s leading training venues.

THE COURSE

Hawki is a Security Industry Authority approved training provider. Upon successful completion of the course, you will be awarded a City & Guilds Level 3 certificate and a medical certificate which allows you to apply for the SIA licence to practise as a close protection operative.

The course comprises four components:

Close protection specialist

- Roles and responsibilities
- Threat and risk assessment
- Surveillance awareness
- Operational planning
- Law and legislation
- Interpersonal skills
- Teamwork and briefing
- Conduct reconnaissance
- Close protection foot drills
- Route selection

- Journey management
- Search procedures
- Incident management
- Venue security

Conflict management

- Avoiding conflict
- Defusing conflict
- Resolving and learning from conflict
- Application of communication skills and conflict management

First aid

- First Aid at Work course (FAW)
- First Person On Scene (FPOS)

Hostile environment

- Tactics in VIP protection
- Tactics for hostile environments
- Protocol and working in overseas countries
- 9mm and 7.62mm firearms familiarisation
- Static and mobile tactics
