Action to prevent loss

- Security and consultancy
- Land-based infrastructure
- Off-shore gas and oil rigs
- Maritime, cargo, anti-piracy

Security and consultancy

We provide the full range of protective security services, including mobile and static security guards and convoy escort teams, to enable you to conduct your business wherever that might be, even in harsh and inhospitable parts of the world.

By assessing and understanding the threats where you are, we are able to significantly reduce your exposure to threats. This allows you to operate in a safer and more secure environment.

Land-based infrastructure

We provide professional qualified personnel to guard and protect your infrastructure. We can also provide logistical support and thereby manage the whole security component for you.

Off-shore gas and oil rigs

We will assess your installation, identify any gaps in your security and work with you to enhance the management of systems and procedures, including the provision of qualified personnel to guard and protect your assets.

Maritime, cargo, anti-piracy

We provide waterborne security for tankers, survey vessels, cargo and super yachts. We have particular expertise in the Gulf of Aden, Horn of Africa, the Malacca Straits, Panama Canal and the Caribbean.

COMPANY PROFILE

Hawki is a team of specialists dedicated to preventing and reducing security risks for our clients. Our main areas of business are:

- Asset protection
- Personnel protection
- Training

Our clients range from private individuals to multinational corporations, governments, the public sector and supranational organisations. Our highly experienced teams operate globally in remote, medium, high risk and post-conflict areas. We analyse clients' needs in depth and create bespoke packages, from a simple travel plan to complex security solutions.

Wherever you are, you can trust us. While we protect your assets and personnel, you can concentrate on your core business.
